DIRECT VENT PIPE

DirectVent Pro set the standard in design, construction, and performance for venting modern direct vent gas stoves and fireplaces. All DirectVent Pro pipe lengths, pipe extensions, and elbows feature laser-welded seams. No beads or hems, allowing for a beautiful, sleek finish that looks great in any interior. Low profile locks. Laser-weld technology creates perfectly rounded pipe, allowing for precision tolerances and a tight connection which eliminates the need for sealants or gaskets. Laboratory tested and listed with each appliance. Wind, rain, and thermal performance tested for safe, dependable operation. Engineered to ensure optimum appliance performance in both vertical and horizontal vent configurations. DirectVent Pro has been designed for use with DirectVent stoves, heaters, and fireplaces. Check the appliance manufacturer's installation instructions to confirm which types of vent configurations are permitted.

Description	Item	Sugg. Retail
Horizontal Termination Kit A (includes: 90° Elbow [black], Ceiling Support/Wall Thimble Cover, 24" Pipe Length [black], 8-1/2" Pipe Extension [black])	46DVA-KHA	\$302.50

sold separately.

DIRECT VENT PIPE

Universal Wall Thimble

Provides a complete wall-pass-through and interior firestop. Features an adjustable sleeve for an exact fit. Eliminates visible trim on exterior or wall near cap. Sized to fit all Directvent Pro termination caps.

Item Number	Description	Sugg. Retail
46DVAWTU	4" x 6-5/8" Universal Wall Thimble	\$38.56
58DVAWTU	5" x 8" Universal Wall Thimble	\$45.86

30° and 60° Elbows

Use to offset obstructions as needed. Fully unitized, twist-lock construction. Elbows swivel, allowing the lock to remain fully engaged while aligning to the desired direction. The angle will remain fixed at 30° or 60°.

Item Number	Description	Sugg. Retail
46DVAE30	4" x 6-5/8" 30° Elbow	\$51.89
58DVAE30	5" x 8" 30° Elbow	\$99.91
46DVAE60	4" x 6-5/8" 60° Elbow	\$59.41
58DVAE60	5" x 8" 60° Elbow	\$113.39

High Wind Sconce Termination Cap

Use for horizontal through-the-wall terminations. Provides improved performance in high wind conditions. Available in aluminum, stainless steel (SS) and copper (C). Check with appliance manufacturer for approval. Includes heat deflector.

Item Number	Description	Sugg. Retail
46DVAHSCH	High Wind Sconce Cap Aluminum	\$169.61
46DVAHSCHS	High Wind Sconce Cap SS	\$543.93
46DVAHSCHC	High Wind Sconce Cap Copper	\$169.61
58DVAHSCH	High Wind Sconce Cap Aluminum	\$237.23
58DVAHSCHS	High Wind Sconce Cap SS	\$663.01
58DVAHSCHC	High Wind Sconce Cap Copper	\$802.92

Reducer

Use to reduce vent diameter from 5" x 8" to 4" x 6-5/8". Check with appliance manufacturer for approval.

Item Number	Description	Sugg. Retail
58DVAJ	Reducer	\$63.26

DIRECT VENT PIPE

Vertical Wind Guard

Use only with High Wind Termination Cap when additional wind protection is needed. Fits both 4” x 6 5/8” and 5” x 8” terminations.

Item Number	Description	Sugg. Retail
46DVAVWG	Wind Guard	\$93.58

Snow Splitter

Use to divert snow around chimney, vent and roof flashing. Constructed of paintable galvanized material. Ships flat for easy assembly.

Item Number	Description	Sugg. Retail
6DTSP	Snow Splitter	\$105.28

Adjustable Pipe

Use to add length to a straight length of DirectVent Pro.

Item Number	Description	Sugg. Retail
46DVA17TA	11-17” Slip PC.	\$40.80
46DVA17TAB	11-17” Slip PC. Black	\$89.98
46DVA24TA	17-24” Slip PC.	\$55.97
46DVA24TAB	17-24” Slip PC. Black	\$96.41
58DVA17TA	11-17” Slip PC.	\$59.61
58DVA17TAB	11-17” Slip PC. Black	\$100.94
58DVA24TA	17-24” Slip PC.	\$62.67

Co-Linear Kit w/Flex

Use when installing a direct vent co-linear insert into a masonry chimney. Kit includes: choice of High-Wind Termination Cap or Prairie Termination Cap and two pieces of Aluminum Flex lengths-one Red (exhaust), one Green (air intake). Four gear clamps also included.

Item Number	Description	Sugg. Retail
46DVACL33	2-3” x 35’ Flex, High-Wind Cap	\$339.23
46DVACL34*	1-4” x 35’ and 1-3” x 4’ Flex, High-Wind Cap	\$339.23
46DVACL33P	2-3” x 35’ Flex, Prairie Cap	\$374.32
46DVACL34P*	1-4” x 35’ and 1-3” x 4’ Flex, Prairie Cap	\$374.32

* NOTE: Available by order only

Typical Installations

Refer to our Typical Venting Installation drawings to select the appropriate component parts for your installation.

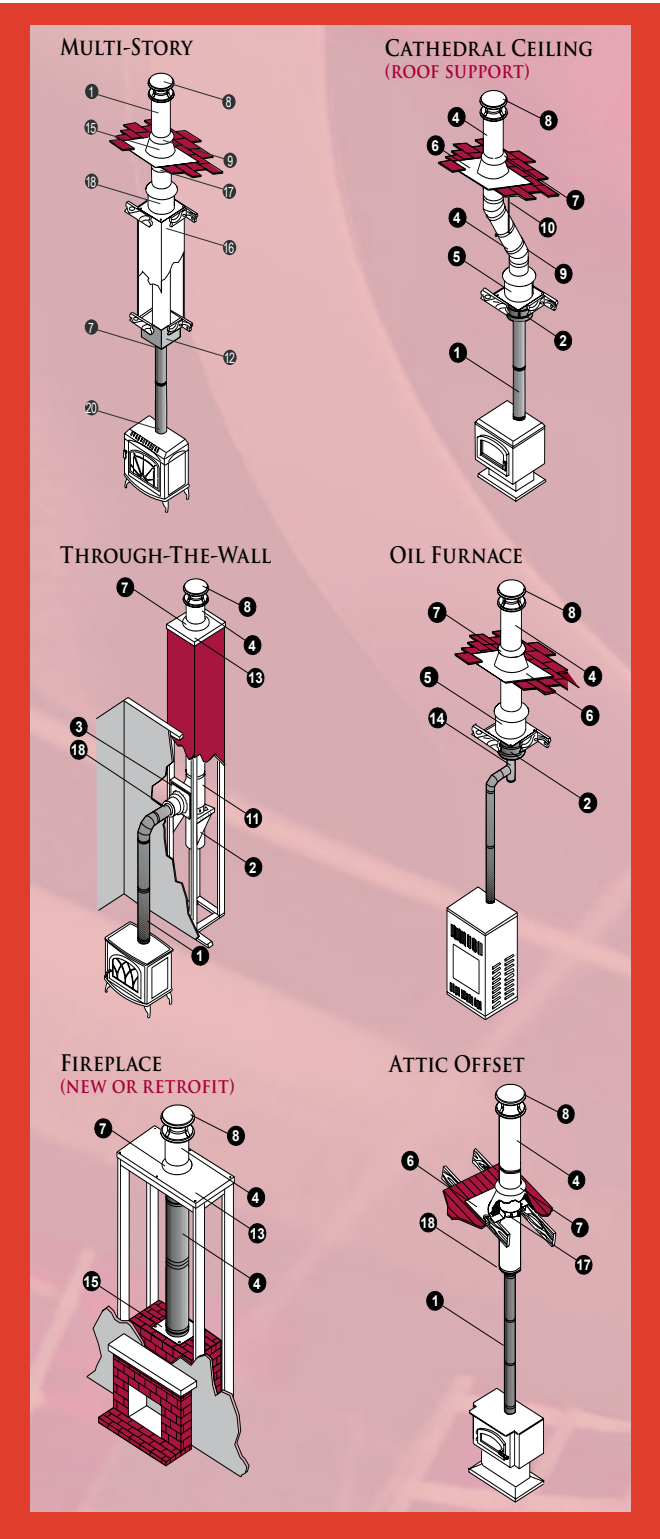

A DVL/DuraBlack Chimney Adapter must be used when connecting DVL pipe to a ceiling support box or finishing collar. When connecting DuraBlack pipe, a DuraBlack Slip Connector or Snap Lock Adapter must be used.

A Wall Thimble must be installed with an appropriate length of chimney pipe for all horizontal through-the-wall installations. To accommodate thicker walls, the telescoping pieces can be separated, and a field-fabricated extension may be installed.

An Attic Insulation Shield must be used in all installations that pass through an attic, regardless of whether the attic is insulated or not.

A Firestop Radiation Shield must be used when a chimney passes through a floor or ceiling without a support box.

*not shown

CLASS A PIPE

DURATECH

Designed and tooled to perfection for the chimney professional, the Duratech Chimney System sets a new standard in quality, design and performance. Thermal tech blanket insulation keeps the outer wall of the chimney cool, while ensuring high flue gas temperatures for optimum draft performance. Lightweight insulation, combined with twist-lock fittings, provides for ease of installation. No locking bands or mechanical fasteners required.

Chimney Design Recommendations:

The size of the chimney should match the outlet size of the appliance. An improperly sized chimney results in poor draft and excessive creosote formation.

If possible, avoid the use of elbows, tees and offsets that serve to restrict the natural draft. A straight vertical installation is more efficient and less likely to develop creosote. Install the chimney in the interior of the structure whenever possible. A cold exterior chimney will produce less draft and will generate more creosote.

Maintain the minimum 2" clearance (air space) to combustibles. Use proper support and bracing. Follow local building codes and have your chimney inspected. Refer to the "Typical Chimney Installations" drawings to select the appropriate component parts for your installation.

* NOTE: 36" and 48" pieces will not be shipped UPS due to damage. 8" DuraTechrequires a 2-3 week lead time.

PELLET PIPE

PelletVent Pro Systems

All PelletVent Pro components that come into contact with flue gases are built with an inner wall of corrosion resistant super-ferritic metal. PelletVent Pro is engineered with features for a durable, safe and aesthetically pleasing venting system. PelletVent Pro is a patent-pending venting system for stoves and inserts that use wood pellets, corn and other biofuels, or oil, as fuel. Minimum 1" clearance to combustibles. Please note that PelletVent Pro is not interchangeable with standard PelletVent or CornVent.

**NOTE: 60" pieces will not be shipped UPS due to damage.*

Combustion Air Wall Thimble Kit

A direct vent for bringing outside air for combustion through an adjustable air channel in wall thimble to appliance without cutting a second hole into the wall. Minimizes down drafts in below-grade installations. Telescoping wall channel (adjusts 36"-70") also available (not pictured).

Item Number	Description	Sugg. Retail
3CAS-WTPK	3" Combustion Air Kit	\$289.55
4CAS-WTPK	4" Combustion Air Kit	\$274.89
3CAS-C70A	Telescoping Wall Channel	\$121.91

Fresh Air Intake Kit

Allows fresh air into an existing pellet stove installation that had been using inside air. The 2" x 18" length flex hose expands to approximately 60". Kit includes: face-plate w/screen, moisture barrier, aluminum flex and two clamps.

Item Number	Description	Sugg. Retail
3PVPAIK	Fresh Air Intake Kit	\$53.05

Adapter Tee w/Clean-Out Tee Cap

Use for a 90° offset. Attaches directly to appliance as an adapter. Removeable twist-lock Clean-Out Tee Cap.

Item Number	Description	Sugg. Retail
3PVPTAD	3" Adapter Tee w/Cap	\$105.30
3PVPTADB	3" Adapter Tee w/Cap Black	\$114.43
4PVPTAD	4" Adapter Tee w/Cap	\$110.15
4PVPTADB	4" Adapter Tee w/Cap Black	\$143.25

Increaser Adapter Tee w/Clean-Out Tee Cap

Use for a 90° offset. Attaches directly to appliance as an adapter. Converts a 3" appliance to a 4" PelletVent Pro system. Removeable twist-lock Clean-Out Tee Cap.

Item Number	Description	Sugg. Retail
3PVPTADX4	3" Increaser Adapter Tee w/Cap	\$112.23
3PVPTADX4B	3" Increaser Adapter Tee w/Cap Black	\$121.65

PELLET PIPE

PelletVent Pro Systems

Double Tee w/Clean-Out Tee Cap

Allows clean-out access for horizontal and vertical installations. Use for a 90° offset. Branch swivels for alignment. Removeable twist-lock Clean-Out Tee Cap.

Item Number	Description	Sugg. Retail
3PVPDBT	3" Double Tee w/Cap	\$205.58
3PVPDBTB	3" Double Tee w/Cap Black	\$205.58
4PVPDBT	4" Double Tee w/Cap	\$210.45
4PVPDBTB	4" Double Tee w/Cap Black	\$143.25

Horizontal Cap

Use for horizontal terminations only. Cap can be turned at the gore to direct exhaust output. Designed to create a venturi effect to force exhaust out.

Item Number	Description	Sugg. Retail
3PVPHC2	3" Horizontal Cap	\$40.13
4PVPHC2	4" Horizontal Cap	\$48.65

4" Short Body Tee w/3" Branch

Use for rear vent pellet inserts. Utilizes a high temperature silicone seal which eliminates the need for high temperature sealant at the flue collar connection. This new design is great for service work as the part will easily slide off the flue collar for cleanings. Gear clamp connections to stove's flue collar and flexible chimney liner provide positive mechanical connections (silicone sealant is required at liner connection). Can be used with Duraflex Pro and Duraflex 316.

Item Number	Description	Sugg. Retail
4VFT3B	4" Tee w/3" Branch	\$120.21

3"-4" Pellet Step Increaser

Use for top vented pellet inserts. Utilizes a high temperature silicone seal which eliminates the need for high temperature sealant at the flue collar connection. This new design is great for service work as the part will easily slide off the flue collar for cleanings. Gear clamp connections to stove's flue collar and flexible chimney liner provide positive mechanical connections (silicone sealant is required at liner connection). Can be used with Duraflex Pro and Duraflex 316.

Item Number	Description	Sugg. Retail
4VFTI	3"-4" Increaser	\$63.02

Prairie Termination Cap

Use when installing a pellet insert into a masonry fireplace. Cap supplies both fresh air and exhaust. Lid pivots to clean.

Item Number	Description	Sugg. Retail
3PVPVCTB33	3" Vent / 3" Air Intake	\$333.14
4PVPVCTB34	4" Vent / 3" Air Intake	\$333.14

Harman Appliance Adapter

Used specifically for Harman pellet appliances. Allows for easy pipe connection at appliance outlet.

Item Number	Description	Sugg. Retail
3PVPADHB	3" Harman Appliance Adapter Black	\$29.24

DOUBLE WALL SMOKE PIPE

DuraVent™ DVL Close Clearance Connectors
DVL Double-Wall Stovepipe is engineered for enhanced safety and superior stove performance. DVL's double-wall air insulated design reduces clearances to combustibles and improves stove performance by maintaining high flue gas temperatures for a strong, steady draft. Close clearance connectors stocked in 6" (8" available as a special order, 2 week lead time). 6" clearance to walls; 8" clearance to ceilings with through-the-wall installations. 25-year warranty.
**NOTE: 8" DVL is a special order and requires a 2 week lead time.*

.22 GAUGE PIPE

Heavy Duty .22-Gauge Welded Seam Black Stove Pipe

Designed for use with residential or commercial coal and wood burning units, and is intended for interior use only. Heavy-duty construction is fabricated from 22- gauge cold roll steel. Laser and Advance Resistance-welded seams makes snap together pipe obsolete. Guarantees a completely sealed seam: no smoke or flue leakage. The welded seams also assure the pipes roundness, making installation a breeze.

** NOTE: 48" pieces will not be shipped UPS due to damage.*

- Beaded for furnace cement
- Black high-temperature, low-luster finish
- Elbows: 45 and 90

.24 GAUGE PIPE

.24 Gauge Matte Black Pipe, Elbows & Fittings

New and exclusive Imperial low gloss black stove pipe paint features both improved resistance to scratching and temperature. Designed for demanding high temperature environments. Can withstand continuous exposure of 600°F and short term exposure to temperatures up to 800°F. Through a signature printing technology, Imperial stove pipe paint will maintain both appearance and integrity of adhesion. Minimum clearance to combustible material is 18". Each joint in the assembly must be joined with at least three self taping screws.

** NOTE: All high temperature paint products will exhibit some minor smoke emanation upon initial usage. This smoke emanation is normal and will disappear after the first usage.*

STAINLESS STEEL PIPE

24-Gauge Stainless Steel Rigid Liner

Liner is suited for use with solid fuel (430 is best suited for wood burning applications) and older oil-or gas-fired equipment that does not produce condensation in the vent. The product’s resistance-welded, 24-gauge stainless steel fabrication meets code requirements and provides optimum safety. Liner is UL Tested and Listed.

STAINLESS STEEL LINERS

DURAFLEX® PRO
MOST FLEXIBLE CHIMNEY LINER ON THE MARKET

Duraflex Pro is the ultimate in flexible steel liners for strength and flexibility. It features 20% more stainless steel per foot compared to other liners on the market. Its' extreme flexibility facilitates problem free installations where multiple offsets are needed. Duraflex Pro liners self straighten when taken out of the box. No other stainless steel liner can say this. No need to wrestle with the liner to get it straightened out. Little to no machine oil residue left on liners. Duraflex Pro is manufactured utilizing highly corrosion resistant 316 stainless steel.

Duraflex SW Smoothwall W/O Tee

Duraflex SW is a smooth inner-wall, flexible stainless steel chimney liner. The smooth inner wall provides for no output reduction allowing for full appliance efficiency. Smooth wall construction eliminates redges that restrict flue gas flow and collect deposits. The lack of ridges facilitates cleaning and maintenance. Duraflex SW is ideal for relining masonry chimney for wood and gas burning appliances. Listed to UL 1777.

Kit includes: Duraflex SS Top Plate, Cap, Connector and Duraflex SW length.

Stainless Steel Multi-Flue Chimney Covers

"BIGTOP"

- ★100% 304 Stainless Steel with **LIFETIME WARRANTY**
- ★.24 Gauge removable Stainless Steel hood for easy cleaning
- ★Standard height stocked is 8" high
- ★.18 Gauge 3/4" expanded Stainless Steel mesh in 8", 10" & 14" heights
- ★Shipped knocked down, reduces freight cost & damage
- ★Tapmark masonry screws and adhesive caulking included
- ★Copper & Black Galv. Steel available on special order

Custom Bigtop Covers

To determine Pricing on Custom Sizes:
Add the required Base Length (L) + Base Width (W), L+W=SUM.
Then multiply the SUM by the appropriate factor in the chart.

Mesh Height	Stainless Factor	Galvanized Factor
8"	7.16	4.74
10"	7.79	5.24
14"	9.20	6.18

- *Shipped assembled, other sizes shipped knocked down
- *Determine mesh height by adding 5" to the tallest tile
- *All units ≥32" width will be shipped with a minimum of 10" mesh
- *For sizes large than 40W x 88L, please call Customer Service for pricing

*Freight charges on custom caps are the dealer's responsibility

CHIMNEY CAPS

“Band-Around-Brick” Custom Made Chimney Covers

- The STAINLESS STEEL covers are recommended for use with wood, coal or oil burning appliances.
- The complete cover is made from 100% 304 STAINLESS STEEL. The top is .24 gauge, the band .24 gauge, birdguard .16 gauge, brace .12 gauge, nuts & bolts are also 304 Stainless Steel.
- The BAND-AROUND-BRICK custom cover can be made for sizes up to 38 inches wide and 86 inches long. (Caps over 32" in width must use a minimum of 12" braces.)

- ★ Custom made to fit any chimney★
- ★ 100% 304 stainless steel
- ★ Maintenance Free
- ★ No Rust
- ★ Guaranteed to fit your measurements

Easy to ship
The cover is packaged knocked down, especially designed to take advantage of the lowest possible shipping rate.

Easy to Assemble
Just attach the braces to assembled band and hood, then attach the pre-formed bird guard.

Easy Installation:

Step 1
Set cover on chimney:
top of 3" band level
with top of chimney.

Step 2
Braces are so formed to
hold cover in place.

Step 3
Tighten all bolts until
band is snug around
chimney

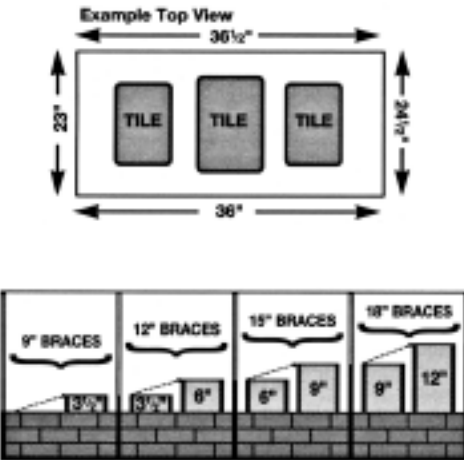

Calculate Retail price by using this formula & chart:
Add the width and the length of the cover together to determine the sum,
multiply the sum by the appropriate factor on the chart below (round the
length and width up to the nearest whole number for pricing).

Width(W) + Length(L) = Sum(S) or W + L = S
Sum(S) x Factor(F) = Retail(R) or S x F=Retail

Standard 8" or 9" braces - Use Regular formula to determine retail price
For 12" braces multiply total by 1.18
For 15" braces multiply total by 1.20
For 18" braces multiply total by 1.22

Chimney Width	Chimney Length	Aluminum Factor	Stainless Factor
15" to 24"	Add "Actual" Length To Width = Sum	\$3.91	\$6.37
24" to 32"	Add "Actual" Length To Width = Sum	\$4.51	\$6.78
32" to 39"	Add "Actual" Length To Width = Sum	\$5.12	\$7.21
Minimum charge at list		\$140.00	\$210.00

* Note: Freight charges on custom caps are the dealer's responsibility.
Please call for freight quote.

CHIMNEY CAPS

Top Sealing Damper

The Lyemance™ top sealing fireplace damper reduces heat loss by controlling down drafts when the fireplace is not in use. Seals out sleet and snow, keeps out rain, birds and insects. Also saves on air conditioning costs. The lid on the damper is spring loaded in the normally open position.

32' Cable shipped standard with each damper

MasonrySaver All-Purpose Heavy Duty Water Repellent

MasonrySaver All-Purpose Heavy Duty Water Repellent is the “Work-Horse” product of the MasonrySaver line. This high performance VOC compliant product is a perfect fit for sealing and protecting brick walls, driveways, sidewalks and patios. MasonrySaver® All-Purpose Heavy Duty Water Repellent is a modified siloxane based product designed to penetrate deeply in to most masonry and concrete pores. Unlike acrylics, silicones, and other waterproofing sealers that remain on the surface and trap water vapors, this masonry waterproofing product allows deep penetration of its active ingredient of up to 1/4 inch or more. This proprietary blend of silanes and siloxanes creates a “SaltShield™” barrier on concrete surfaces, for greater resistances to the deteriorating effects of road salts and de-icing chemicals. This 100% breathable concrete waterproofing product is a great choice for both horizontal and vertical above grade surfaces.

Paint “N” Peel Fireplace Cleaner

ChimneySaver Paint “N” Peel Fireplace Cleaner is a safe, effective way to clean your fireplace front. Your hearth professional has the proper tools and experience to apply the product correctly. The product is brushed on and then dries to a thick, rubbery, non-hazardous film in 6-12 hours. When completely dry, it is easily peeled away from the surface and discarded. Paint “N” Peel Fireplace Cleaner saves you time and eliminates the hassle of cleaning your smoke/soot stained fireplace.

Works on nearly all masonry surfaces including brick, stone, marble, slate, tile. concrete, mortar, limestone, and cultured stone.

- Restores the Appearance of Your Fireplace
- Environmentally Friendly
- No Noxious Odors
- Interior/Exterior Use

300441	1 Gallon \$68.65

Chimney Rx Masonry Crack and Joint Sealer

ChimneyRx® Masonry Crack and Joint Sealant is a brushable elastomeric sealant used to repair exterior cracks in mortar joints on chimneys, brick walls and between concrete masonry units. The product seals larger cracks and other defects that cannot be corrected with water repellents alone. Chimney Rx® Masonry Crack and Joint Sealant seals cracks up to 1/8" wide on brick faces and at mortar and brick joint interfaces to provide waterproof protection to minimize brick mortar repair. It dries clear to milky white depending on the size of the crack. It prevents water infiltration and subsequent damage, yet allows water vapors to escape.

HEATING SUPPLEMENTS

The Woodchuck Add-On furnace line can eliminate the unpleasanties of in-home woodburning. The Woodchuck is typically placed next to your present Central Heating unit instead of the main living area of your home. This means NO firewood, dirt, or bark to clean up, or hot surfaces to guard from small children. Woodchuck offers the comfort of luxurious, even heat distributed throughout your home. The cost of oil and gas DOES NOT mean you must abandon or replace the central heating system designed for your home. After all, it's the oil and gas consumption we want to reduce, not the system. **Please call Customer Service for availability.**

THERMOMETERS & THERMOSTATS

Model 3-4 Chimgard Energy Meter
 Standard of the industry. Durable genuine porcelain enamel with yellow & orange zones clearly indicated on brown case - shows safe flue temperatures at a glance. Temperatures up to 900° F. (500 Centigrade). Rugged steel case for long life. The top-quality thermometer for stove or stovepipe.

***While Supplies Last**
Model 3-12 Catalytic Combustor Probe Thermometer
 Innovative design for accurate measurement of gases immediately behind a combustor. High temperature coil registers accurate readings up to 2000° F. Can be retrofitted to most catalytic stoves to comply with EPA monitoring regulations (consult stove manufacturer for location of mounting hole in stove). An indispensable tool for efficient woodstove operation - signals when to switch off bypass, and when to reduce fire to prevent degrading expensive combustors. Probe length 1 3/4".

Model 3-16 Woodsaver Stovepipe Thermometer
 Economy version in black aluminum with silver markings and red pointer. Markings indicate ranges for too cool (creosote), best operation, and over-heating. Temperatures up to 900° F.

Model 3-34 Medallion Stovetop Thermometer
 Elegant European Styling makes the Medallion a natural choice for discriminating buyers. This versatile meter can be used for stovetop, stovepipe or as a surface catalytic monitor. Certain to complement the finest stoves. Rich black enamel base has both Fahrenheit and Celsius scales in real 24-karat gold.

Model 3-39 FlueGard™ Thermometer
 Best probe thermometer for fluepipes. Durable genuine porcelain enamel with yellow and orange zones clearly indicated on brown case - shows temperature in the center of the fluepipe, at a glance. Stem length 4 inches, engineered to measure accurately, for any diameter fluepipe up to 8". Requires 1/4" hole. Mounts easily with included magnet and eyelet. Readings up to 1700° F. Rugged steel case. For use on double wall pipe only

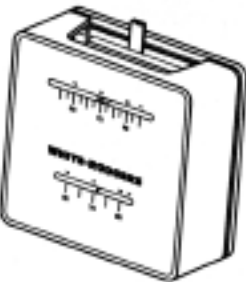

Model 3-30 Inferno Stove Top Meter
 Surface thermometer calibrated to measure Fahrenheit temperatures on stove top. Black genuine porcelain enamel on durable steel. Stylish new design features gray, white, and orange burn-temperature zones. Helps you conserve wood due to burning too hot, while avoiding excess creosote by burning too cool.

CATALYTIC COMBUSTORS

CATALYTIC COMBUSTOR REPLACEMENT CROSS-REFERENCE LIST

Replacing a worn-out combustor will restore the efficiency and benefits of owning a catalytic stove. Burn times can increase by 50%, while you can realize as much as twice the heat from the same piece of wood. Your chimney stays much cleaner and safer and you're protecting our valuable air quality. It is easy to replace existing catalysts by identifying the stove model, catalyst dimensions and cell size.

Example: 25C/2C is 25 squares per sq. inch and 2" height.

GASKETING, CEMENT & ADHESIVES

Stove Gasketing

Today's high efficiency wood, pellet, corn, coal and gas appliances are airtight and require a positive air and gas seal to ensure peak operating efficiency. Door seals will become worn, loose or compressed causing loss in operating efficiency, door seals should be replaced on an annual basis. MEECO'S RED DEVIL products are made of the highest quality texturized fiberglass yarn. They are 100% asbestos-free and will withstand temperatures up to 1000° F. MEECO owns its own knitting machines and is an OEM supplier to the industry.

BRONZE Gasketing features our new textile technology. It is easy to handle, no black dye to rub off on your hands, 2000° F melting temperature, 15% higher tensile strength than regular fiberglass gasketing with better chemical resistance. Completely recyclable.

Fiberglass Fireplace Insert Seal

(Insulation)

10' x 1-1/2" wide self-adhesive strip insulation forms a smoke and gas tight seal between fireplace insert and existing masonry. To obtain best stove performance, replace insulation each time insert is removed for cleaning.

KK0075A	Tube 2.7 oz.	\$4.95
KK0076	Cartridge 10.3 oz.	\$5.25

CEMENT & ADHESIVES

Red 600°F RTV
High Heat Silicone Sealant

The Best High Temperature Sealant

600°F RTV Red high-heat Silicone sealant is a neutral cure (no odor) ultra-performance sealant. It forms a tough rubbery seal and keeps it's flexibility. It will adhere to glass, metal, plastic, fiberglass, aluminum, wood, brick and slate. The neutral cure feature prevents corrosion to copper or galvanized chimney flashings. Without harsh odor, it's the perfect choice for application in confined areas. Covers approximately 55 feet with a 3/16" bead per cartridge.

Item#		Sugg. Retail
KK0205	Cartridge	\$13.00
KK0321	Tube	\$ 7.50

450° F High Heat
Silicone Sealant

450° F High Heat silicone sealant forms a tough rubbery adhesive seal. Uses include: sealing fireplace inserts, solar panel repairs, stoves, flashings - anywhere a black or translucent permanent elastic seal is needed. Adheres to most materials.

Item#		Sugg. Retail
KK0202	Black (Cartridge)	\$11.50
KK0203	Translucent (Cartridge)	\$11.50
KK0322	Translucent (Tube)	\$ 6.75
KK0309	Black (Tube)	\$ 6.75

Furnace Cement

Pre-mixed, ready-to-use high temperature silicates. Multi-purpose cements for bonding and sealing both masonry and metals with working temperatures up to 2000° F. Designed for patching or repairing cracked or chipped firebrick and mortar. Effective in re-setting and cementing furnaces, stoves, chimney collars, boilers and duct work.

Item#		Sugg. Retail
1333	1 Pint	\$7.83
1332	1/2 Pint	\$5.31

Direct Vent Appliance Sealant

Excellent for sealing the firebox and venting joints of gas, pellet, corn and wood stoves. 1100° F peak operating temperature, 900° F continuous. Does not promote rust when applied to bare metal. Paintable when dry, air cure.

Item#		Sugg. Retail
615	10.3oz. Cartridge	\$18.75
614	2.7oz. Tube	\$8.75

CEMENT & ADHESIVES

Fireplace Mortar

For bonding firebrick to firebrick. Fireplace mortar is a silicate product that when fire cured, sets rock hard - as strong as firebrick itself. Comes in a convenient cartridge for easy repointing of fireplace brick. Apply with caulking gun. Colors match most mortars. Withstand 2000° F.

Item#		Sugg. Retail
KK0306	(Black)	\$5.00
KK0296A	(Buff)	\$5.00
KK0067A	(Gray)	\$5.00

Refractory Cement

A ready-mixed, high temperature silicate mortar for setting, coating or resurfacing firebrick. Used extensively as the mortar between firebricks when building fireplace fireboxes. The ideal high-heat sealant for masonry-to-masonry joints under 1/4" thick. Buff color.

Item#		Sugg. Retail
KK0307	64oz.	\$24.00
KK0308	128oz.	\$42.00

Castable Refractory Cement

Resists temperatures up to 2200° F and has exceptional strength and abrasion resistance. It's ideal for casting into custom shapes to replace worn-out firebrick. When the dry material is mixed with water, it chemically sets and dries brick hard. It can be cast in irregular shapes or as a solid stone bed. 12 lbs. casts a block 12" x 12" x 1-1/2" sq. Buff Color.

Item#		Sugg. Retail
KK0062	12 lb. Pail	\$36.00

CLEANERS & CHEMICALS

Glass Cleaner

Keep Glass Doors Looking Their Best!

- ◆ Stove Bright Glass Cleaner is specially formulated to quickly remove layers of smoke stains from tempered glass.
- ◆ Excellent for cleaning porcelain surfaces.
- ◆ Cuts through baked on carbon and creosote deposits.

Timber Lite Firestarter Squares

Firestarter squares are the safe clean burning solid fuel alternative to liquid fire starters. These high-performance squares light quickly and easily. Suitable for charcoal grills, fireplaces, wood and pellet stoves, and campfires. Non-explosive, no dangerous flare-up. Non-toxic, will not flavor food.

Item#	Description	Sugg. Retail
KK0312	24 sq Carton	\$4.50

Gelled Firestarter

A superior gelled alcohol formulation that burns hotter and longer. It's safe, odor free and smokeless. One Match is easy to use, fast and effective for starting all types of pellet, wood, charcoal and coal fires without flare-up.

Item#	Description	Sugg. Retail
KK0291A	16oz. Bottle	\$7.50
KK0292A	32oz. Quart	\$11.50

Fatwood Firestarters

How do you light your fire?

Fatwood Firestarters are a natural wood product. 100% naturally heavy resined pine, these sticks are non-toxic, non- chemically formulated and do not need to be kept out of reach of children. Fatwood Firestarters light with a match and do not require the use of paper or other kindling. Ideal for use with catalytic combustors! Two sticks light all types of wood, pellet fuels and most coals. Burn time is 8-15 minutes per size of stick and are recommended for use in Wood/Coal stoves, Pellet Stoves, Fireplaces, Campfires and Barbeques.

CREOSOTE TREATMENTS

Sweep's Aid Creosote Treatment Powder

Weekly application helps prevent soot and creosote build-up in chimneys. Not a substitute for regular thorough chimney cleaning.

Item#		Sugg. Retail
KK0319	2 lb.	\$9.95

Easy Sweep® Creosote Destroying Firelog

This item will destroy built-up creosote and help prevent further creosote build-up. Four treatments per package. Burn your fire as usual; each “split wood” piece will produce 8,000 BTUs when burned. Easy Sweep CDFs contain no wax, are safe to burn in woodstoves, fireplaces or fireplace inserts, and they will not void the warranty of your appliance.

Item#		Sugg. Retail
1004	Easy Sweep creosote destroying firelog, 4/pk.	\$24.95

Soot Remover “Sticks”

This easy-to-use toss-in stick controls soot and creosote build-up conveniently. Just place a stick on your fire, no measuring or mess.

Item#		Sugg. Retail
KK0317	3oz. Tube	\$2.75

CREOSOTE TREATMENTS

Exclusive liquid formula in 32 oz. container with pump spray.

ACS, Anti-Creo-Soot™ is an advanced liquid catalyst; non-flammable, non-corrosive, non-toxic.

It's a water-based, non-combustible, non-polluting, non-corrosive scientific discovery that helps to disperse and control glazed creosote and soot in woodstoves, fireplace inserts, woodburning boilers, furnaces, etc.

- ★ Prevent chimney fires before they start
- ★ Provide more heat per cord of wood
- ★ Unseat dangerous glazed creosote and soot
- ★ Reduce smoke that causes creosote build-up

Spray into firebox and on wood under low fire. Thoroughly tested. Proven safe.
Nothing Else Comes Close!

Similar results for coal users.

Item#		Sugg. Retail
ACS	32 oz. Spray	\$17.00
ACSG	1 Gallon Bottle	\$45.00

ACS Gas Log Carbon and Soot Remover™

*A premium-grade anti-carbon spray.
Recognized leader by the industry.*

- ★ Instantly disperses carbon & soot from gas logs with a light spray (while burning hot).
- ★ Maintains natural look of logs, with ease.
(Not recommended for white & birch logs).
- ★ Helps keep gas orifices from clogging.
- ★ Safe: Non-flammable, non-toxic, non-corrosive.

TOTES

9-14, 8-16 ToteBasket

America's favorite. Fill it up with wood, heavy fruit, tools, or whatever your imagination suggests. Now with edgebindings and handles in stylish forest green, the super-strong nylon polyester duck is "weathered pumpkin" to look as appropriate inside by the hearth as outside in the garden. Also available in Black (Model 8-16).

8-12 ToteBasket, Junior

A versatile little tote. Super-strong nylon polyester duck (200 pound tensile strength). A stylish gift that's superbly well-made. Black with khaki trim.

8-13 Wood Sling

Best wood sling, period. Super strong nylon polyester duck won't mildew or rot. Leave it outside next to the woodpile if you like-a blast from your hose makes cleaning easy. Generous dimensions help you cradle a full armload of wood easily. The durable sling features reinforced handles and edge bindings. Black with khaki trim.

POLICIES & PROCEDURES

WARRANTY CLAIMS

All claims will be settled in the form of a credit memo to your regular purchase account to be applied against future purchases. **Do not take credit until credit is issued. No deduction from specific merchandise invoices or debit memos will be accepted. Please submit all proper Warranty Claim Forms via fax to 1-877-876-7337.**

Village Hearth and Home is NOT responsible for freight charges incurred by a dealer for replacement parts. Freight for all warranty items is the responsibility of the dealer in the event that the manufacturer does not cover it.

RETURNS POLICY

1. **ALL returns require a Village Hearth and Home Return Authorization (RA) number.** An RA number can **only** be obtained by sending a fax to Village Products. The fax must include the part number, description of the problem and original invoice number on which the part was purchased. Credit will not be considered without an RA number. **Any item returned to Village Hearth and Home for which an RA number has not been issued may be returned to the dealer freight collect or scrapped.**
2. A Return Authorization number is only an authorization to return product. The assigned number does not mean credit will be issued. Credit will not be given for any product returned to Village Hearth and Home that is found to be mishandled, abused or installed improperly. **Invoices for all merchandise must be paid in full. No deduction from specific merchandise invoices or debit memos will be accepted.**
3. If you have not yet been invoiced for a product, you may not return it until after an invoice has been generated. **Any merchandise must be returned within 30 days of being invoiced.**
4. RA numbers will be issued via fax.
5. A copy of the RA paperwork must accompany the return. **Do not write anything, including the RA number, on the box itself.**
6. **All returns must be in the original box and in resalable condition.** If a product is not returned in resalable condition, it may be returned to the dealer, freight collect, or scrapped. **No credit will be issued.**
7. **Glass doors and other custom, special order, non-stock items or other products not featured in this catalog are not returnable.**
8. Merchandise must be returned to Village Hearth and Home within 30 days of the date on the RA.
9. ALL returns are subject to a 20% restocking fee.

By following these guidelines, we can assure you that your credits will be processed in a timely manner. **The above policies and procedures are subject to change without prior notice. For complete rules and details, please contact Village Hearth and Home.**

POLICIES & PROCEDURES

DAMAGED MERCHANDISE RECEIVED

Items shipped via UPS:

Damages must be reported within 7 days of receipt via fax to Village Hearth and Home at 1-877-876-7337. Please save a copy of the fax confirmation for your records. Upon receipt of the fax, Village Hearth and Home will file the claim with UPS. Please keep the item in question until UPS inspects it and credit has been issued for the damages. **Invoices for all merchandise must be paid in full. No deduction from specific merchandise invoices or debit memos will be accepted.**

Items shipped via LTL common carrier:

(Ex: Ross, ABF, Severance, etc) **Claims must be immediately filed directly with the carrier.** All orders are shipped FOB Manchester, NH. From the time a carrier picks up a shipment from Village Hearth and Home, that carrier assumes all responsibility for the shipment. Upon receipt, all LTL shipments must be carefully inspected by the dealer and any damages or missing items must be noted on the bill of lading. Signing for a shipment without notating damages on the bill of lading means that the shipment is being signed for in good terms, and any recourse to gain credit from the freight company will be lost. **Village Hearth and Home is not responsible for LTL shipments once they leave our warehouse. Invoices for all merchandise must be paid in full. No deduction from specific merchandise invoices or debit memos will be accepted.**

Items picked up at Village Hearth and Home:

Dealer must inspect all items being picked up before removing them from the Village Hearth and Home warehouse. **Village Hearth and Home will not accept damaged items for return that have been picked up from the warehouse. Invoices for all merchandise must be paid in full. No deduction from specific merchandise invoices or debit memos will be accepted.**

Credit

Credit may be obtained by completing a credit application. Please use the form located in the back of this catalog or call us toll-free at 1-800-366-9663.

Freight

All goods are shipped F.O.B. Manchester, NH. We attempt to ship all orders complete. When this is not possible, back-orders will be shipped F.O.B. Manchester, NH, as soon as possible (unless otherwise requested.) Please remember that larger items, such as firescreens, doors, stove boards, large pieces of pipe, units, etc., cannot be shipped via UPS. We will use a common carrier form of delivery at our discretion. Additional services such as Lift Gate, Call Notification or Residential will be invoiced upon verification of the freight company. Shipments out of the New England territory may accrue additional fees.

Please note: The above policies and procedures are subject to change without prior notice. For complete rules and details, please contact Village Hearth and Home Distribution.

POLICIES & PROCEDURES

SHORT SHIPMENTS

Short-shipments must be reported within 7 days of delivery date via fax to Village Hearth and Home at 1-877-876-7337. The fax should include the pick ticket number, part number and quantity of items short-shipped. Please save a copy of the fax confirmation for your records.

On occasion, UPS orders will ship in multiple packages. UPS may not deliver all of the packages on the same day. You may want to wait a day or two before filing a claim for a short shipment, as the remaining merchandise may still be en route. If you do not receive a package that was sent via UPS, please contact Village Hearth and Home customer service department at 1-800-366-9663, who can provide you with a tracking number and assist you with tracking the shipment.

On LTL shipments, it is very important to check pallets as they arrive. Pallets may be bounced around during transit, causing items to fall off. At Village Hearth and Home, we do our best to wrap each pallet as securely as possible, however LTL carriers occasionally rewrap pallets, which adds to the possibility that an item may be missing. Please note that Village Hearth and Home uses only clear shrink-wrap. The packing slip will be in a pouch attached to the side of the shipment.

You have a maximum of 7 days from the delivery date to report short shipments. Village Hearth and Home must be notified of the short-shipment in writing. Please fax a note to Village at 1-877-876-7337 that lists the pick ticket number, item number and quantity of items short-shipped. Please save a copy of the fax confirmation for your records. Invoices for all merchandise must be paid in full. No deduction from specific merchandise invoices or debit memos will be accepted.

PRICING

Retail pricing was valid at the time of printing this catalog. Whenever possible, we try to inform dealers of price changes, however, **prices are subject to change without notice at any time.** Dealer discount will be based on a variety of factors, including dealer commitment level. **Please contact Customer Service to verify your discount.**

SPECIAL ORDERS

Please refer to the item description verbiage to determine if the item you are looking for is available on Special Order only. Please call for pricing and lead times as Special Orders may take longer to order. **All nonstock and custom orders will require a written purchase order submitted via either fax or email.**

TYPOGRAPHICAL AND PRICING ERRORS

While every attempt is made to produce an accurate catalog, Village reserves the right to correct any and all errors printed in this catalog without notice.

CATALOG REQUESTS

Please call 1-800-366-9663 for more copies of this catalog.

CUSTOMER COMMENTS

If you would like to send us a comment or suggestion, please call toll-free at 1-800-366-9663. Or write to us at: Village Hearth and Home, Customer Comments, 100 Zachary Road, Manchester, NH 03045. Your comments help make us a better distributor.

Please note: The above policies and procedures are subject to change without prior notice. For complete rules and details, please contact Village Hearth and Home.

The above information is given for the purpose of obtaining credit and is warranted to be true. We hereby authorize the within name trade, credit and bank reference to be released to Village Hearth and Home Distribution. Such information as it requests in its review of the application. Additionally, the undersigned hereby makes this application for credit to Village Hearth and Home Distribution ("Creditor") and, in making this application, the undersigned agrees that all amounts payable on or before the due date as on each invoice will be paid and, if not paid on or before that due date, are then delinquent. Should credit availability be granted by creditor, all decisions with the respect to the extension or continuation of credit shall be at the sole discretion of the creditor. Creditor may terminate any credit availability within its sole discretion. It is understood that creditor will impose a finance charge of the lower of one half (1 1/2%) per month or the highest rate allowed by law on any amount which becomes past due and delinquent. The undersigned shall be responsible for all collection costs and attorney fees in connection with any delinquent amount. The below owner or officer agrees to personally guarantee to Village Hearth and Home Distribution the payment of all invoices, accounts & debts including finance charges owing from time to time by the applicant to Village Hearth and Home Distribution.
